

In regards to the NAB petition 04-160 that seeks to stop XM from providing XM Instant Traffic & Weather. I am a over the road truck driver, that has very much benefited from the satellite radio traffic and weather. I can see what the weather and or traffic is like in a certain city before I even get to that city, or within radio range of a station in a city or without searching for a station. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to listen too. I respectfully urge you the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve.

Thank you,
Howell Warren
